Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

PS-1	a support team manager	ensure that customer tickets are assigned to the correct team quickly	tickets are manually reviewed and assigned	there is no automated routing system in place	frustrated due to delays and inefficient support handling
PS-2	support agent	resolve assigned issues efficiently	tickets are sometimes misrouted or delayed	manual processes increase errors and confusion	overwhelmed and less productive
